

REVYPEEL®

B&A

mbe

REVYPEEL® is a Class IIa medical device that renews skin cells on the face, neck, décolleté, and body through deep stimulation that does not irritate the surface of the skin. The special composition of Revypeel, containing trichloroacetic acid, mandelic acid, and kojic acid, allows for the effective treatment of damage related to photo- and chrono-aging, skin lesions caused by acne and dyschromia, stretch marks, and scars.

Revypeel is available in two concentrations: **Low** and **High**.
