CLEANSING MILK

500ml bottle

Cleansing milk with healing properties

l'magine
Visible Improvement Skin Treatments

ACTIVE INGREDIENTS

- Betula Alba Leaf Extract
- Tocopheryl Acetate
- Caprylyl Glycol

ACTION

Betula Alba Leaf Extract: A natural extract known for its soothing, antioxidant, and astringent properties. It helps to calm skin irritations, protect against environmental damage, and minimize the appearance of pores.

Tocopheryl Acetate: A stable and potent form of Vitamin E, this antioxidant neutralizes free radicals, preventing damage caused by UV radiation and pollution. It also supports skin hydration and promotes a healthy complexion.

Caprylyl Glycol: This emollient offers dual benefits. It moisturizes the skin while providing gentle antimicrobial protection.

This non-foaming cleansing milk is formulated for effective yet gentle removal of makeup, impurities, and treatment residues. Its unique blend of ingredients is ideal for preparing the skin for professional treatments.

Key Benefits:

- Deep Cleansing: Effectively removes dirt, oil, makeup, and pollutants without stripping the skin's natural oils.
- pH Balancing: Restores the skin's natural pH balance, promoting a healthy microbiome.
- Exfoliating Action: Gently lifts away dead skin cells to reveal smoother, brighter skin.
- Hydrating and Soothing: Leaves the skin feeling soft, supple, and refreshed.
- Suitable for All Skin Types: Its gentle, non-irritating formula is well-tolerated by even sensitive skin.

RESULTS

Formulated for all skin types, this gentle cleansing product effectively removes impurities without compromising the skin's natural barrier. The inclusion of birch extract offers multiple benefits for patients concerned with sebum regulation and skin congestion. Its decongestant and anti-reddening properties promote a healthy complexion, while tocopherol provides antioxidant protection and helps maintain optimal hydration levels. This cleanser is ideal for preparing the skin for subsequent aesthetic treatments.

HYDRA CALMING LOTION

500ml bottle

Calming Lotion

l'magine
Visible Improvement Skin Treatments

ACTIVE INGREDIENTS

- Calendula botanical extract
- Mallow botanical extract
- Horse-chestnut botanical extract
- Echinacea botanical extract
- Rose extract
- Natural moisturizing factor (NMF)

ACTION

Calendula Botanical Extract: Stimulates cell renewal, provides anti-inflammatory benefits, improves microcirculation, and enhances skin tone.

Mallow Botanical Extract: Delivers deep hydration, forms a protective barrier to maintain moisture balance, and soothes redness while providing emollient and decongestant properties.

Horse Chestnut Botanical Extract: Strengthens capillary walls and promotes healthy blood circulation.

Echinacea Botanical Extract: Improves skin elasticity and tone.

Rose Extract: Provides antioxidant protection and strengthens capillaries.

Natural Moisturizing Factor: Optimizes skin hydration and restores the hydrolipidic barrier.

A gentle, restorative lotion specifically formulated to soothe and hydrate sensitive, reactive skin. This unique blend of botanical extracts effectively reduces redness, inflammation, and discomfort, making it an ideal choice for post-procedure care or for individuals with easily irritated skin.

Key Benefits:

- Soothes and calms sensitive, reactive skin
- Reduces redness and inflammation
- Hydrates and restores the skin's natural barrier
- Ideal for post-procedure care
- Formulated with gentle, natural ingredients

RESULTS

HYDRA CALMING LOTION provides immediate relief to reactive skin. It visibly diminishes redness, inflammation, and abrasions often associated with aggressive treatments. Skin is left feeling soft, supple, and calm.

VITA LOTION

250ml bottle

Vitamin Lotion

l'magine
Visible Improvement Skin Treatments

ACTIVE INGREDIENTS

- Vitamin A
- Vitamin C
- Vitamin E
- Aloe Vera

ACTION

Vitamin C has a specific "radical scavenger" action that counteracts the formation of free radicals. It strengthens capillaries, ensuring good blood supply to the epidermal tissue and strengthening collagen and elastin. It also acts on melanogenesis and when applied to the face it provides photoprotection and depigmentation of brown spots. It is important to note that vitamin C plays a key role in collagen synthesis and is necessary for the specific stimulation of the messenger RNA for type 1 pro-collagen, the precursor of mature collagen fibers.
Vitamin E is a "radical scavenger". Its function is to prevent and slow down the formation of lipid peroxidation.
Vitamin A stimulates the cellular metabolism of tissues throughout the body, continuously renewing them, especially in the epidermis. The newly hydrated and nourished epidermis remains young, radiant, and smooth to the touch.
Aloe Vera has a wide variety of beneficial effects. It is recognized for its hydrating, soothing, anti-redness, and anti-inflammatory properties.

RESULTS

The synergistic combination of the three vitamins and Aloe Vera offers soothing properties for irritated tissues and accelerates cutaneous healing processes. Additionally, it provides an antioxidant effect to combat ageing.

SCRUB LOTION

250ml bottle

Exfoliating lotion for ultrasonic spatula

l'magine
Visible Improvement Skin Treatments

ACTIVE INGREDIENTS

- Lactic Acid
- Citric Acid
- Ascorbic Acid

ACTION

This exfoliating lotion, enriched with Lactic, Citric, and Ascorbic acids, provides a gentle exfoliation and stimulates cellular turnover. The active ingredients work to regulate pH and promote antioxidant activity. Its use in conjunction with an ultrasonic spatula is recommended. The liquid activates the ultrasonic action while simultaneously exerting its natural exfoliating properties.

Lactic Acid: Regulates keratinization and provides a mild peeling effect, leaving skin smooth and refined. Supports the treatment of acne, psoriasis, and impure skin.

Citric Acid: Regulates skin pH. Promotes the renewal of epithelial cells and exfoliates the skin.

Ascorbic Acid: A powerful antioxidant, particularly on the hydrophilic part of skin tissues. Helps to combat UV damage, protects capillaries, and stimulates collagen synthesis.

Soak a cotton pad with the lotion and moisten the skin before using the spatula. The use of a liquid is essential for activating the ultrasonic function and preventing tissue overheating. Always ensure the skin is wet before applying Ultrasonic Power to the skin.

Without the Ultrasonic Spatula:
Scrub Lotion can be applied with a cotton pad directly to the skin for a quick degreasing effect during the preparatory phase of the treatment.
Note: This product is primarily designed for professional use.

RESULTS

The combination of acids produces an exfoliating effect on the tissues and regulates keratinization, leaving the tissue smooth and silky. It performs a gentle exfoliation and stimulates cellular turnover.

TNT MASK

10-tablet pack

Nonwoven fabric

l'magine
Visible Improvement Skin Treatments

PRODUCT DESCRIPTION

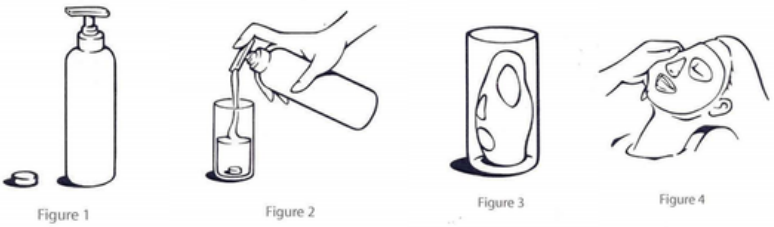

The TNT Mask is a compressed non-woven fabric sheet mask designed to absorb and deliver active ingredients to the skin. It provides a soothing and relaxing effect, leaving the skin feeling firm, smooth, and refreshed. It is particularly beneficial after laser treatments, chemical peels, and injections.

FEATURES

- Made of compressed non-woven fabric
- Highly absorbent
- Soothes and relaxes the skin
- Promotes firmness and smoothness
- Ideal for post-treatment care

DIRECTIONS FOR USE

1. Pour 10 ml of Hydra Calming Lotion into a bowl (Fig. 1).
2. Immerse one TNT Mask in the solution (Fig. 2).
3. Wait until the mask is fully saturated with the lotion (Fig. 3).
4. Apply the mask to the face, ensuring complete contact (Fig. 4).
5. Leave on for 10 minutes.

key Benefits:

- Helps to calm and soothe the skin after aesthetic procedures
- Reduces redness and inflammation
- Promotes skin healing and regeneration
- Improves skin tone and texture
- Leaves the skin feeling hydrated and refreshed

Recommended for:

- Post-laser treatment
- Post-chemical peel
- Post-injection
- Sensitive skin
- Dry skin

Note:
For single use only.

FILL AND REVITALIZE SERUM

50ml Airless dispenser

l'magine
Visible Improvement Skin Treatments

Revitalizing Facial Serum

ACTIVE INGREDIENTS

- Myrrh Deep Power Complex®
- Deep Reactivator Mineral Complex®
- Bio-Reactivator Complex®

ACTION

Myrrh Deep Power Complex®: Microencapsulated myrrh extract that stimulates lipid synthesis, strengthens cellular immunity, and visibly fills wrinkles.

Deep Reactivator Mineral Complex®: A mineral blend with lotus flower, fenugreek, and peach extracts that enhances cell permeability, accelerates nutrient delivery, and supports skin trophism.

Bio-Reactivator Complex®: A combination of wheat protein, marine collagen, and hyaluronic acid that inhibits collagen breakdown, stimulates collagen production, and provides deep hydration.

Fill and Revitalize Serum is a professional-grade serum designed to address skin laxity, wrinkles, and loss of volume. Its unique blend of active ingredients works synergistically to restore firmness, tone, and hydration, promoting a more youthful and revitalized appearance.

Key Benefits:

- Advanced Formulation: Combines three powerful complexes: Myrrh Deep Power Complex®, Deep Reactivator Mineral Complex®, and Bio-Reactivator Complex®.
- Targeted Action: Addresses multiple signs of aging, including wrinkles, loss of firmness, and dehydration.
- Visible Results: Noticeable improvements in skin tone, texture, and volume.
- Suitable for Various Skin Types: Can be used on skin with varying levels of fullness, from preventative to reparative applications.
- Airless Dispenser: Preserves product integrity and ensures hygienic application.

RESULTS

- Improved Skin Tone and Texture: Skin appears firmer, smoother, and more refined.
- Reduced Wrinkle Depth: Visibly diminishes the appearance of fine lines and wrinkles.
- Enhanced Skin Volume: Restores lost volume, creating a plumper and more youthful look.
- Increased Hydration: Improves skin moisture levels, leaving it soft and supple.

Preventive Action:: For maintaining skin health and preventing premature aging.

Corrective Treatment: For addressing existing signs of aging, such as wrinkles, loss of firmness, and volume depletion.

WHITEN AND REPAIR SERUM

Airless bottle 50ml

Whitening Serum for face

l'magine
Visible Improvement Skin Treatments

ACTIVE INGREDIENTS

- C-Clear Effect®
- Red Sorrel and Yarrow Extract
- Hydra Deep Complex®

ACTION

C-Clear Effect®: A proprietary complex that targets melanin biosynthesis, reducing the appearance of existing discoloration and preventing future pigmentation irregularities.

Red Sorrel and Yarrow Extract: A botanical blend that supports capillary health, provides a whitening effect, and protects the skin from environmental stressors.

Hydra Deep Complex®: A moisturizing complex composed of rice oil, collagen, and glycoproteins that delivers deep hydration and reduces the appearance of dehydration-related imperfections.

A professional-grade serum designed to address hyperpigmentation and promote skin rejuvenation. This advanced formula combines potent whitening, regenerating, protective, moisturizing, and anti-aging properties to deliver comprehensive skin benefits.

RESULTS

- Whitening: Effectively lightens existing pigmentation and prevents the formation of new discoloration.
- Repairing: Stimulates collagen production and supports skin's natural repair processes.
- Protecting: Protects against photoaging and environmental damage.
- Moisturizing: Provides deep and lasting hydration for a healthy, radiant complexion.
- Anti-ageing: Reduces the appearance of fine lines and wrinkles.

Preventive Action: Ideal for individuals with a predisposition to hyperpigmentation or those seeking to maintain an even skin tone.

Reparative Action: Effectively addresses existing discoloration caused by photoaging, medications, or hormonal imbalances.

SERUMS FOR AIRBRUSH (OXYGEN THERAPY)

vial 5 ml x 4

HYALU Lotion: Plumping and Hydrating Lotion

ACTIVE INGREDIENTS

- Hyaluronic Acid
- Glutamic Acid
- Polysaccharides
- Viotamin A
- Vitamin E

ACTION

HYALU Lotion is a powerful hydrating lotion that combines hyaluronic acid, glutamic acid, polysaccharides, retinol, vitamin E, and ceramides to deeply hydrate and plump the skin. It restores moisture, making it ideal for those with dry skin or loss of skin volume.

RESULTS

- Pluming: Effectively plumps the skin with an immediate effect.
- Filling: Stimulates collagen production with an evident filler effect.
- Moisturizing: Provides deep and lasting hydration for a healthy, radiant complexion.
- Anti-oxidant: contrasts free radicals.

Preventive Action: Ideal for individuals with a predisposition to dry skin.

SERUMS FOR AIRBRUSH (OXYGEN THERAPY)

vial 5 ml x 4

LIFT Lotion

ACTIVE INGREDIENTS

- DMAE
- Glycine
- Lysine
- NMF

ACTION

LIFT Lotion delivers a visible lifting effect, combining DMAE, NMF, glycine, and lysine to firm and reshape the skin. This lotion is designed to counteract the appearance of sagging skin, providing a more contoured and toned appearance, ideal for addressing loss of skin elasticity.

RESULTS

- Toning
- Elasticizing
- Moisturizing

Preventive Action: Ideal for individuals with a predisposition to wrinkles and fine lines.

SERUMS FOR AIRBRUSH (OXYGEN THERAPY)

vial 5 ml x 4

OXY Lotion

ACTIVE INGREDIENTS

- vitamin E
- vitamin A
- Oxygen

ACTION

OXY Lotion is a micellar oxygen lotion formulated with biodisponible oxygen, vitamin E, and vitamin A. The emerging oxygen it contains is polarized with radiation corresponding to the resonance frequency of human DNA, making it quickly recognizable and absorbable by the epidermis. This lotion provides an immediate toning and energizing effect, revitalizing the skin for a refreshed and vibrant appearance.

RESULTS

- Repairing
- Energizing
- Toning Lotion

Preventive Action: Ideal for individuals with a predisposition to flabby skin.

SERUMS FOR MICRONEEDLING & OXYNEEDLING

vial 5 ml x 4

LUMINOVA: whitening serum

ACTIVE PRINCIPLES AND RELATIVE ACTION

- Alfa-arbutina
- Acido Cogico
- Acido Citrico

▪**Alpha-Arbutin** – Tyrosinase inhibitor (key enzyme in melanogenesis); reduces dark spots and hyperpigmentation. More stable and more effective than standard arbutin.
▪**Kojic Acid** – Tyrosinase inhibitor; copper-chelating agent (copper being a cofactor of tyrosinase); brightening and antioxidant properties.
▪**Citric Acid (AHA)** – Gentle exfoliating alpha hydroxy acid; accelerates cellular turnover, facilitating the removal of hyperpigmented cells and enhancing the efficacy of depigmenting agents.

SERUMS FOR MICRONEEDLING & OXYNEEDLING

vial 5 ml x 4

EXONOVA: biorevitalising exosomes serum

ACTIVE PRINCIPLES AND RELATIVE ACTION

▪**Momordica Charantia Extracellular Vesicles (Botanical Exosome-Like Vesicles) + Phospholipids** – Extracellular vesicles of botanical origin extracted from bitter melon, structurally analogous to natural exosomes but 100% plant-derived.Phospholipids form the vesicular membrane, encapsulating and delivering the naturally occurring prebiotics present in bitter melon.Functional activity:Carrier system for transdermal delivery of active ingredientsStimulators of cellular regenerationCutaneous anti-inflammatory actionAntioxidant activity, reducing oxidative stressIntercellular signaling support, enhancing the skin's reparative response
▪**Sodium Hyaluronate (Low Molecular Weight)** – Provides deep hydration and volumizing effect.
▪**Saccharide Isomerate – Biomimetic of the Natural Moisturizing Factor (NMF)**; ensures long-lasting hydration.
▪**Panthenol (Vitamin B5)** – Hydrating, soothing, and barrier-repairing action.
▪**Ceramide NP, Ceramide AP, Ceramide EOP** – Restore the skin's lipid barrier.
▪**Phytosphingosine – Ceramide precursor**; antibacterial and anti-inflammatory properties.
▪**Phospholipids / Lecithin / Hydrogenated**
▪**Phosphatidylcholine** – Biomimetic lipid structures with carrier and delivery-enhancing function.
▪**Vitamin C** – Antioxidant; brightening; stimulates collagen synthesis.
▪**Vitamin A** – Promotes cellular renewal and collagen stimulation.
▪**Acetyl Decapeptide-3** – Stimulates keratinocyte proliferation; supports tissue renewal.
▪**Acetyl Hexapeptide-51 Amide** – Human defensin-mimetic peptide; stimulates cutaneous stem cells.
▪**Dimethylaminoethanol Tartrate (DMAE)** – Cutaneous muscle tonic; tightening and firming effect.
▪**Niacinamide (Vitamin B3)** – Brightening and anti-aging; reduces redness and hyperpigmentation; strengthens the skin barrier.
▪**Hydrolyzed Eruca Sativa Leaf Extract** – Hydrolyzed arugula extract; antioxidant; stimulates microcirculation.
▪**Lactobacillus Ferment** – Probiotic; rebalances the skin microbiome; soothing action.

SERUMS FOR MICRONEEDLING & OXYNEEDLING

l'magine
Visible Improvement Skin Treatments

vial 5 ml x 4

PURENOVA: purifying serum

ACTIVE PRINCIPLES AND RELATIVE ACTION

- **Niacinamide (Vitamin B3)** – Regulates sebum production; reduces enlarged pores; anti-inflammatory; promotes a more evenskintone.
- **Zinc Gluconate** – Bioavailable zinc; sebum-normalizing, antibacterial, anti-inflammatory, and wound-healing properties.
- **Carnitine HCl** – Regulates cutaneous lipid metabolism; reduces sebum production.
- **Lysine Carboxymethyl Cysteinate** – Acts on keratin disulfide bonds; helps normalize follicular hyperkeratosis (comedones).
- **Lysine Thiazolidine Carboxylate** – Cysteine derivative; keratolytic activity; normalizes keratinocyte turnover.
- **Ozonized Oleic Acid – Ozonated oleic acid**; antibacterial, antifungal, wound-healing; selective oxidizing action against cutaneous pathogens.
- **Panthenol (Vitamin B5)** – Soothing; supports barrier repair; anti-inflammatory action.
- **Arctium Lappa Root Extract (Burdock)** – Purifying; sebum-normalizing; antibacterial.
- **Lavandula Angustifolia Extract (Lavender)** – Antibacterial; soothing; promotes healing.
- **Nasturtium Officinale Extract (Watercress)** – Natural antibacterial; rich in vitamin C and sulfur.
- **Salvia Officinalis Extract (Sage)** – Astringent; antibacterial; sebum-normalizing.
- **Achillea Millefolium Extract (Yarrow)** – Soothing; anti-inflammatory; wound-healing properties.
- **Arnica Montana Extract** – Anti-inflammatory; decongestant; reparative action.
- **Juniperus Communis Fruit Extract (Juniper)** – Purifying; antibacterial; astringent.

SERUMS FOR MICRONEEDLING & OXYNEEDLING

vial 5 ml x 4

LIFTNOVA: lifting effect serum

ACTIVE PRINCIPLES AND RELATIVE ACTION

▪**Dimethylaminoethanol Tartrate (DMAE)** – Cutaneous muscle tonic; provides an immediate tightening and firming effect.
▪**Pullulan** – Film-forming polysaccharide; creates a tightening film on the skinsurface with an immediate visible lifting effect.
▪**Opuntia Ficus-Indica Stem Extract (Prickly Pear)** – Rich in polysaccharides; delivers a filler-like and tightening effect with antioxidant activity.
▪**Hydrolyzed Wheat Protein** – Film-forming hydrolyzed protein; provides tightening and restructuring effects.
▪**Glycolic Acid** – Low molecular weight AHA; chemical exfoliant that stimulates cellular turnover and collagen synthesis.
▪**Lactic Acid – AHA**; gentle exfoliant with hydrating properties, improves skin texture and radiance.
▪**Malic Acid – AHA**; exfoliating and antioxidant; enhances the activity of otherAHAs.
▪**Tartaric Acid – AHA**; exfoliating action.
▪**Urea** – Humectant with keratolytic properties; component of the Natural
▪**Lysine Hydrochloride** – Amino acid component of the Natural Moisturizing Factor (NMF); hydrating and collagen precursor.
▪**Glycine** – Amino acid component of the NMF; hydrating and collagen precursor.
Nannochloropsis Oculata Extract – Marine microalgae rich in E**PA (omega-3); antioxidant, anti-inflammatory, microcirculation-stimulating, and anti-aging activity.**
Panthenol (Vitamin B5) – Soothing agent; supports skin barrier repair and provides anti-inflammatory action.

SERUMS FOR MICRONEEDLING & OXYNEEDLING

l'magine
Visible Improvement Skin Treatments

vial 5 ml x 4

NEURONOVA: botox-like serum

ACTIVE PRINCIPLES AND RELATIVE ACTION

▪ Palmitoyl Sh Pentapeptide-17 Sp Lysine Amidopropyl Diglycolpropylamine

Represents 100% of the functional activity of this serum. This is a neuromodulating peptide complex that:

▪Inhibits the release of acetylcholine at the neuromuscular junction
▪Reduces muscle contractions responsible for expression wrinkles
▪Provides a non-invasive, topical “Botox-like” effect
▪Acts on forehead lines, crow’s feet, and perioral wrinkles

SERUMS FOR MICRONEEDLING & OXYNEEDLING

vial 5 ml x 4

HYDRANOVA: filler effect serum

ACTIVE PRINCIPLES AND RELATIVE ACTION

- **Sodium Hyaluronate** – Hyaluronic acid; provides deep hydration with a volumizing and plumping effect.
- **Saccharide Isomerate – Biomimetic of the Natural Moisturizing Factor (NMF)**; delivers long-lasting hydration for up to 72 hours.
- **Glutamic Acid** – Humectant amino acid and component of the NMF; contributes to the filler-like effect.
- **Opuntia Ficus**-Indica Stem Extract (Prickly Pear) – Rich in polysaccharides; provides a smoothing and filler effect with antioxidant activity.
- **Ceramide NP + Ceramide AP + Ceramide EOP** – Complete restoration of the skin's lipid barrier.
- **Phytosphingosine** – Ceramide precursor with anti-inflammatory and antimicrobial properties.
- **Retinyl Palmitate (Vitamin A)** – Stable form of retinol; stimulates cellular turnover and provides anti-aging benefits.
